

(2) An applicant who has previously attended an institution of higher education must submit a financial aid transcript which includes at least the following data:

- (i) Applicant's name and social security number;
- (ii) Amounts and sources of loans and grants previously received by the applicant for study at an institution of higher education;
- (iii) Whether the applicant is in default on any of these loans, or owes a refund on any grants;
- (iv) Certification from each institution previously attended by the applicant that the applicant has received no financial aid, if applicable; and
- (v) From each institution previously attended, the signature of an official authorized by the institution to sign such transcripts on behalf of the institution.

(b) *Selection of applicants.* The school will select qualified applicants, including medical (M.D. and D.O.) applicants, and determine the amount of student loans by considering:

- (1) The financial resources available to the student by using one of the national need analysis systems or any other procedure approved by the Secretary of Education in combination with other information which the school has regarding the student's financial status. The school must take into account, regardless of the tax status of the student, the expected contribution from parents, spouse, self or other family members; and

(2) The costs reasonably necessary for the student's attendance at the school, including any special needs and obligations which directly affect the student's ability to attend the school on a full-time basis. The school must document the criteria used for determining these costs.

(c) *Selection of medical (M.D. and D.O.) student applicants.* In addition to the factors in § 57.206(b), the school must select medical (M.D. and D.O.) students graduating after June 30, 1979, based on the order of greatest need, taking into consideration the other resources available to the student through the school. For purposes of establishing priority for selecting medical (M.D. and D.O.) student applicants to receive

health professions student loans, summer earnings, educational loans, veterans (G.I.) benefits, and earnings during the school year will be considered as financial resources.

(d) *Verification of loan information.* The school must verify, to the best of its ability, the information provided by the student on the loan application. To comply with this requirement, a school may require that a student provide, for example: Photocopies of the parents', student's, and spouse's Federal income tax forms with original signatures for the most recent tax year (or certification that no Federal income tax return was filed); tax returns that are certified as having been received by the Internal Revenue Service; or other documentation that the school considers necessary to help assure that information on the loan application is correct.
